

STATE OF MARYLAND VS. DEPHANY SHAYLA MCKNIGHT
IN THE CIRCUIT COURT FOR BALTIMORE COUNTY

INDICTMENT

The Jurors of the State of Maryland, for the body of Baltimore County, do on their oath present that DEPHANY SHAYLA MCKNIGHT, on or about March 29, 2017 through and including July 18, 2019, in Baltimore County,

INTRODUCTION AND BACKGROUND

At all times relevant to this Indictment:

1. The Maryland Department of Public Safety and Correctional Services (DPSCS), is the state agency responsible for administering correctional facilities and pre-release centers in Maryland. The agency employs more than 11,000 individuals, including sworn correctional officers and fiscal personnel.
2. DPSCS utilizes Time Clock Plus (“TCP”), an automated biometric time entry system, in conjunction with Workday, a human resources management program, to manage employee payroll and benefits data. TCP biometrically identifies and validates users, records the in and out punches with the requisite worktags as required by Workday, synchronizes leave hours, and automatically transfers time data to Workday after requisite approvals.
3. DEPHANY SHAYLA MCKNIGHT (“MCKNIGHT”) was employed by DPSCS as a sworn Correctional Officer II, a position that constitutes a public officer under Maryland law.
4. As a Correctional Officer, MCKNIGHT was required to utilize a fingerprint scanner to clock in and out of TCP at the beginning and again at the conclusion of each shift, to document the hours she worked. In the event that there were any discrepancies between the hours she worked and the hours documented at the end of a pay period, MCKNIGHT was required to bring the

discrepancies to the attention of her assigned timekeeper. MCKNIGHT was prohibited from making any changes to her documented work hours without the involvement of her assigned timekeeper.

5. The hours worked, as tracked by TCP, are verified and approved by assigned timekeepers at the end of each pay period and then uploaded into the Workday program. Once uploaded to Workday, the timekeepers or payroll staff are the only employees authorized to make adjustments. Correctional Officers are not authorized to make any changes in Workday, and have “view only” access.

6. Workday has an “auto-fill from prior pay period” function which allows authorized users to copy and paste hours worked in a prior pay period into the current pay period. As a Correctional Officer who did not have permission to make changes in the Workday program, MCKNIGHT was prohibited from utilizing the “auto-fill” function. When viewing the Workday program on a computer, the “auto-fill” function was deactivated.

7. Workday has a mobile application that can be downloaded to an individual’s cellular telephone or other mobile device. An error in the mobile application resulted in the “auto-fill” function remaining active for correctional officers, who were supposed to have “view only” access and were prohibited from making any entries in the Workday program.

8. From March 29, 2017 through and including July 18, 2019, on at least twenty-nine (29) occasions, MCKNIGHT logged into the Workday mobile application and utilized the “auto-fill” function to change her documented work hours. MCKNIGHT auto-filled her work hours using prior work weeks where she received a large amount of overtime, thus significantly increasing her documented work hours. MCKNIGHT utilized the “auto-fill” function to add in a total of **1,057.79 hours** that she did not actually work, resulting in overpayments that totaled **\$28,652.43**.

9. The DPSCS Finance Service, Accounting, Payroll and Audit Unit, located at 300 E. Joppa Road, Ste 1000, Towson, MD 21286, in Baltimore County, MD, utilized the data MCKNIGHT wrongfully entered into Workday to process MCKNIGHT's payroll and calculate payroll payments.
